## Introduction

Local valuations contained in this report are representative of the 2022 Annual County Abstracts of Valuation and Assessment as filed with the Oklahoma Tax Commission and presented to the State Board of Equalization for certification on the third Monday of June each year.

The Ad Valorem Division of the Oklahoma Tax Commission performs Public Service company valuations for the State Board of Equalization. These values are presented to the State Board of Equalization for certification on the third Monday of June. Public Service property fair cash valuations will be assessed at that assessment percentage which they were assessed at on January 1, 2022 as directed by Section 8, Article 10 of the Oklahoma Constitution. Those assessment percentages applied to public service companies are 11.84% for railroads and airlines, 12.0% for video services providers, and 22.85% for all other public service companies.

The State Board of Equalization has the constitutional and statutory authority to achieve uniformity of assessment on a statewide basis by applying a standardized level of assessment for locally valued property. Currently this level of assessment has been set at a minimum of 10% and a maximum of 15% for personal property, and a minimum of 11% and a maximum of 13.5% for each specific subclass of real property.

This report contains gross assessed and net assessed property valuation numbers for locally valued properties, accounting for penalties and exemptions as authorized by statutes. Public Service valuations are exclusive of any applicable penalties, as these are no longer added to their assessed value.

Oklahoma statutes provide personal property exemptions for veterans, heads-of-households, and qualifying manufactured homes on leased land. Real property exemptions are the homesteads allowed for homeowners and the exemption for 100% Disabled Veterans. The statutes also provide for additional homestead exemptions on real property and exemptions for qualified manufacturing and processing industries. Provisions are in place for the reimbursement of tax dollars lost due to some these exemptions. These exemptions reduce the counties' assessed valuation and tax base.

Article 10, Section 8B of the Oklahoma Constitution provides that the fair cash value of any parcel of **locally valued real property** shall not increase by more than three percent (3%) for homestead and agricultural land or five percent (5%) for everything else in any taxable year. The provisions of this section shall not apply in any year when title of the property is transferred, changed, or conveyed to another person or to any improvements that have been made on the property.

All tax dollars shown in this report are **estimates** calculated utilizing the 2022 assessed valuations as of November 1, 2022 for each county multiplied by the 2022 county effective millage rate for that respective county. The 2022 effective millage rate estimate being utilized is the best information available at this time. Given these parameters, estimates of tax dollars were calculated for each county. Information representative of the fair cash values, assessed values and the estimate of tax dollars for the State were developed with a summation of each category at the county level.
